It was a pleasure to work with Mobile Reality team on update of our Web Map Service application. Their experience and knowledge of web development are top-notch. In result of our cooperation we added the quite big range of new functionalities to our web application and we updated its graphic layout.

Their systematic process makes it easy to communicate. I appreciate that they listened to my concerns and desire of what I want the application to do. I value they availability, honesty, punctuality and paying attention to details.

I would recommend them highly to any company that looks for a reliable IT-partner.

Sincerely,  
**Mateusz Chachulski**
